

PHYSICAL THERAPY

Doctor of Physical Therapy (DPT) - PCOM Georgia

Admission to the Doctor of Physical Therapy (DPT) program is competitive and selective. PCOM seeks well-rounded, achievement-oriented individuals whose maturity and dedication will lead them to a successful career as physical therapists. An acceptance offered by the Faculty Committee on Admissions is based on the applicant's fulfillment of prerequisite coursework, grade point average (GPA), Graduate Record Examination (GRE) scores, letters of recommendation, essay, resume, and a personal interview.

Your application will be processed and assessed by the Faculty Committee on Admissions only after the receipt of:

- A completed application and \$75 institutional application fee
- A bachelor's degree from a regionally accredited college or university (must be completed prior to matriculation)
- Official transcript(s) of all undergraduate and graduate coursework
- Three Letters of Recommendation
- Official score report from the GRE - General Test

Application Process

All inquiries about admission to the Doctor of Physical Therapy (DPT) program should be directed to PCOM's Office of Admissions. The physical therapy program participates in the centralized online application service for physical therapy (PTCAS (<https://www.apta.org/cas/ptcas/>)). Beginning in May, prospective physical therapy students interested in Fall 2023 admission for the DPT program may submit their application through PTCAS (<https://www.apta.org/cas/ptcas/>), a secure web server. The Faculty Committee on Admissions utilizes a rolling admissions policy. Therefore, applications will be considered throughout the year as received until the desired class size has been reached. However, those applications completed prior to December 1 will be given priority.

Baccalaureate Degree Requirement

For matriculation into this program, an applicant must have completed a bachelor's degree from a regionally-accredited institution.

Prerequisite Coursework

Prior to matriculation, an applicant must have successfully completed the following:

- General/Introductory Biology: two-course sequence for science majors (8 semester-hours credit), must include labs; **or** two-course sequence in Anatomy & Physiology (8 semester-hours credit), must include labs;
- If the two-course sequence in Biology for science majors is chosen, one additional Biology course with a lab must be completed (preferably advanced biology.)
- If the two-course sequence in Anatomy and Physiology is chosen, one additional course in Biology with a lab for science majors must be completed.
- General/Introductory Physics: two-course sequence for science majors (8 semester-hours credit), must include labs (sequence should include content related to mechanics, electricity, magnetism, and light);

- General/Introductory Chemistry: two-course sequence for science majors (8 semester-hours credit), must include labs;
- Social or behavioral sciences: two courses (6 semester-credit hours); Acceptable courses include psychology (any), sociology, anthropology and world religions.

Applicants must obtain an overall grade point average of 3.0 and a prerequisite grade point average of 3.0 on a 4.0 scale. (as calculated by PTCAS (<https://www.apta.org/cas/ptcas/>)). Grades of D or F are not accepted. If courses are repeated, PCOM will take the highest grade, not an average of all attempts. Prerequisite courses cannot be older than 7 years and must be completed at a regionally accredited college or university. Foreign coursework will not be accepted towards the completion of prerequisites.

At the time of application, candidates must have the prerequisite coursework completed or be able to provide a plan in writing that demonstrates the completion of the prerequisites prior to enrollment in the program. This can be achieved by completing the "Planned or In Progress Coursework" section of PTCAS. Note that the requirements for the baccalaureate and all prerequisite courses must be completed prior to matriculation. At least six of the ten required prerequisite courses must be completed before an application will be considered.

Letters of Recommendation

Applicants must submit three letters of recommendation, one of which must be from a licensed physical therapist. The two remaining letters are preferred to be from any of the following sources:

- College professor
- Employer/Supervisor
- Pre-health professions advisor
- Other healthcare professional

To the extent appropriate, each letter should address the applicant's character, leadership abilities, commitment to service, ability to be self-directed, communication skills, and ability to work as a member of a team.

We will accept electronic transcripts via email from Parchment Services and National Student Clearinghouse to admissions@pcom.edu. Additional letters of recommendation can be sent directly to PCOM Admissions in .pdf format to recommend@pcom.edu. All other admissions documents can be sent to gaadmissions@pcom.edu.

Standardized Test Scores

Along with a completed application, letters of recommendation and transcripts, candidates to the Doctor of Physical Therapy program must submit an official score report from the GRE - General Test to be considered for admission. The PCOM Georgia PTCAS code for the GRE is 2849.

The minimum GRE scores required are as follows: GRE-V, 146; GRE-Q, 144; and GRE-W, 3.5. PCOM will take the highest score of multiple attempts. A combined score of 290 or above for verbal and quantitative are accepted.

Healthcare Experience Requirements

There are no specific requirements for health care experiences to be eligible for enrollment. Applicants should, however, be able to demonstrate breadth and depth of knowledge about the practice of physical therapy through meaningful experiences demonstrated through

a completed application for admission. Any volunteer work or paid work in a clinical setting wherein candidates are either providing hands-on care or witnessing care first hand is valued. Health care shadowing experiences are also highly recommended.

Assessing Applicants for Interview Consideration

On receipt of a completed application, each applicant will be screened to determine if they are to be invited for an on-campus interview. The following will be considered during the screening process:

- Academic ability based on GPA (overall and prerequisite) and GRE scores. Admission to PCOM's PT program is very competitive and selective. Higher GPAs and GRE scores will enhance your chances of being selected for an interview. The average undergraduate GPA for applicants accepted to physical therapy programs nationally during the 2020-21 admissions cycle was 3.47/4.00. The average unofficial GRE percentile scores for the same admissions cycle ranged from 44% on the Quantitative scale to 61% on the Analytical scale.
- Major and minor areas of undergraduate study
- Observation/experience in physical therapy (quantity and variety)
- Leadership
- Interest in underserved populations
- Personal interests

All applicants selected for an interview will be contacted via e-mail, with a proposed date and time. Please note, although all applicants who are eventually accepted must be interviewed, the granting of an interview does not guarantee acceptance into the program. On the day of the interview, applicants may have an opportunity to talk with admissions staff and current students. The interviews are conducted by a panel consisting of physical therapy program faculty. Current students may also be involved.

Following the completion of the admissions process, each applicant is notified of the Admission Committee's decision via their PCOM application portal, including any conditions that must be satisfied prior to enrollment in the program.

Enrollment Requirements

Accepted applicants are asked to submit a \$500 deposit by April 15. This fee is non-refundable and, along with the initial deposit of \$500 by January 15, is credited to student's tuition account.

The accepted candidate is also asked to review and acknowledge PCOM's Technical Standards for Admission and Matriculation by sending the completed/signed forms to TechStandards@pcom.edu.

In an effort to foster the safety and well-being of the entire campus community, as well as to ensure that students accepted to PCOM will be permitted to perform clerkships/internships required to successfully complete their degree requirements, PCOM requires all first-year students to complete a criminal background check prior to matriculation. All students must have their criminal background checks processed through a PCOM vendor of choice. The Office of Admissions will send notification of the process after confirmation of enrollment and must have this information on file prior to orientation; students will not be allowed to start classes without this information.

Policy on Transfer of Credits

The Department of Physical Therapy does not routinely accept transfer students; however, a transfer application may be considered under extenuating circumstances and depending on the availability of places

within the class. In order to be considered, a prospective student must provide documentation of the circumstances necessitating the transfer and must be in good standing in a CAPTE-accredited program of physical therapy. The applicant must be able to demonstrate equivalency of courses undertaken with courses within the DPT curriculum. Credit will only be granted for courses that "match" courses within the DPT curriculum and for which a grade of B or higher was achieved. A minimum of two years must be completed at PCOM for a student to be eligible to receive the DPT degree.

Questions
